GFM teams up with UDA Holdings Berhad to provide facilities management services for Bukit Bintang City Centre project

~ Secures preliminary consultancy contract to provide facility management strategy, cost and design review, aims to secure full scale contract upon completion of development ~

Kuala Lumpur, 27 September 2017 – Integrated facility management services provider, GFM Services Berhad (“GFM” or “The Group”) has entered into a Collaboration Agreement with UDA Holdings Berhad to provide facility management consultancy services for the Bukit Bintang City Centre Project. The scope includes structuring the facility management strategy for the development, determination of operational and life cycle cost as well as optimization of design.

Identification of the right facility management strategy shall support the business goals of the development and deliver the required level of service to the users and residents. With the right strategy in place, maintainability and operational cost can then be optimized in line with best practices. These are the benefits that will be provided to the client.

The Collaboration Agreement was signed between GFM Solutions Sdn Bhd and UDA Dayaurus Sdn Bhd, both of which are wholly-owned subsidiaries of GFM and UDA Holdings Berhad respectively.

GFM SERVICES BERHAD (1033141-H)

Encik Ruslan Nordin, Managing Director of GFM said, “This strategic partnership kickstarts a constructive working relationship with UDA Group. This opportunity is only the beginning. As the Bukit Bintang City Centre project is in the early stages of construction, there are certainly more that we can contribute.”

“The partnership hopes to eventually participate in the subsequent phases which includes providing the full scale of facility management services to the buildings once construction is completed. It is truly an honor to be working on one of Malaysia’s iconic developments and this will strongly add to our capabilities and track record as we bid for similar type of jobs.”

Bukit Bintang City Centre Project is the major redevelopment of the old Pudu jail site, primely located in the heart of Kuala Lumpur city centre. It is a mixed residential and commercial development. This strategic collaboration combines the experience, knowledge and expertise of both organisations in the field of facility management and allows for enhanced delivery of value to the project and client.

Moving forward, this initiative serves to strengthen the partners’ business fundamentals which include building a strong customer base of public and private sector clients, entering into long-term contracts to strengthen its earnings visibility whilst maintaining a competitive cost structure.
